Dear Brother Dennis:

Maria Reiger called me for information for the Moraga family tree. I have sent her some information.

After all this time I realized who you meant when you called about a Mr. Miller. I had some pictures I had taken on the romeria when we went to the Water Company property and Mr. Miller had lived in a house that was taken over when the San Leandro Dam was built. We saw the foundations where the houses had been and he told us the history of the area. This was the romeria when the gold coins were found. I had sent the photos to the Moraga Historical Society for their collection.

Sincerely,
Margaret Breen

P.S. Did you ever get a copy of the enclosed article.
